PROFESSIONAL SUMMARY

Dynamic and results-driven intern with hands-on experience at TECHNOV8R Solutions, where I contributed to a teen wellness app, enhancing user engagement through effective UI design and backend integration. Proficient in Python and object-oriented programming, I excel in problem-solving and collaboration, ensuring high-quality code and user-focused solutions.

EDUCATION

Bachelor of Technology: Computer Science And Engineering (with DataScience),

Expected in 04/2027

Anil Neerukonda Institute of Technology And Sciences - Visakhapatnam, India

Intermediate Certificate: MPC, 04/2023

Ascent Junior College - Visakhapatnam, India

High School Diploma: CBSE, 04/2021

St.Ann's CBSE School - Visakhapatnam, India

SKILLS

Technical Skills:

Frameworks: Flask (Basic), FastAPI (Basic)

Databases: MySQL, MongoDB

Programming Languages: Python

Core Concepts: OOP, DSA (Intermediate)

Tools & Technologies: GitHub, VS Code

EXPERIENCE

Intern

05/2025 – 07/2025

TECHNOV8R Solutions – Visakhapatnam, India (Remote)

- Contributed to the design and development of a teen wellness mobile application, focusing on mental health, mood tracking, and positive habit building.
- Assisted in building core app screens including onboarding, user authentication (sign-up/login), profile setup, home dashboard, chatbot interface, wellness feed, and mood tracker.

PROJECTS

- MENTAL-HEALTH-RISK-PREDICTOR:** Machine learning project that predicts student depression risk using behavioral patterns. Includes data preprocessing, model training, and a deployed Streamlit web app for real-time predictions.
- FAKE-NEWS-AND-SCAM-DETECTOR:** An AI-powered Fake News and Scam Detector built using Flask, NLP sentiment analysis, and MongoDB to analyze suspicious content and generate real-time risk scores.
- TRUTHLENS:** A full-stack AI-based Reality Verification System that analyzes textual claims using multi-signal reasoning (evidence patterns, source credibility, and language analysis) to generate a truth score with explainable results.
- REAL-TIME WEATHER ANALYSIS:** Web-based application that provides real-time weather information for any city using the OpenWeatherMap API

CERTIFICATIONS

MongoDB, Credly - April 2026

Python Developer, Solo learn - February 2026

Flask, LinkedIn - March 2026
