PROFESSIONAL SUMMARY

Aspiring Software Engineer with hands-on experience building web applications and AI-assisted solutions using Flask and PostgreSQL. Skilled in developing scalable backend systems, REST APIs, and with a strong foundation in Python, Object-Oriented Programming, and Data Structures & Algorithms. Passionate about leveraging technology and AI to solve real-world problems, with a proven ability to learn quickly, adapt to new technologies, and collaborate effectively in team environments.

EDUCATION

Bachelor of Technology: Computer Science And Engineering (with Data Science) Expected - 04/2027
Anil Neerukonda Institute of Technology And Sciences, Visakhapatnam, India

Intermediate Certificate: MPC - 04/2023
Ascent Junior College, Visakhapatnam, India

Secondary Education: CBSE - 04/2021
St. Ann's CBSE School, Visakhapatnam, India

SKILLS

Frameworks	Flask, Django
Databases	MySQL, PostgreSQL
Programming	Python
Frontend	HTML, CSS, JavaScript
Core Concepts	OOP, DSA
Tools & Technologies	GitHub, VS Code, Postman

EXPERIENCE

Intern 05/2025 – 07/2025

TECHNOV8R Solutions – Visakhapatnam, India (Remote)

- Contributed to the design and development of a teen wellness mobile application, focusing on mental health, mood tracking, and positive habit building.
- Assisted in building core app screens including onboarding, user authentication (sign-up/login), profile setup, home dashboard, chatbot interface, wellness feed, and mood tracker.

PROJECTS

- CampusGig - Student Gig Marketplace:** Built a full-stack marketplace enabling students to discover gigs, apply, and manage hired assignments through submission and employer review workflows. Implemented secure role-based workflows and Razorpay payment integration with PostgreSQL, and deployed the production application on Render.
- APPOINTMENT-SYSTEM:** Full-stack web application that enables students and professors to schedule and manage appointments efficiently. Includes user authentication, role-based access, appointment booking, scheduling management, and real-time status tracking.
- AI-BASED-SECURITY-ANALYST:** Developed a Flask-based AI Security Analysis platform leveraging Python, Gemini AI, and custom threat-detection engines to detect phishing, malicious URLs, brute-force attacks, SQL injection, and privilege escalation attempts with automated risk scoring and mitigation guidance.

CERTIFICATIONS

- Python Essentials 1 & 2, Cisco – June 2026
- MongoDB, Credly – April 2026
- PostgreSQL for Developers, Amazon – May 2026
- Flask, LinkedIn – March 2026

ACHIEVEMENTS

- Finalist, National Entrepreneurship Challenge (NEC) – IIT Bombay
- Technical Lead, BizVERVE, ANITS
- Organizer of TECHNOVA' 2k25 – A National Level Hackathon with over 700+ participants
